After the installation the members repaired to Ceader's bakery where an oyster supper was served. Ice cream, cake, coffee, and etc., were in abundance and the way the Heptasophs eat shows that they are a healthy set of men.

After the cigars had been lighted Toastmaster Andrew Brockerhoff called on Captain Johnson of Altoona who presented to his hearers some figures relative to the Order which showed the advantages of the Heptasophs over other insurance orders.

Editor Kurtz made a short talk on "Florida." Brother Alexander also made a short talk. Other toasts were delivered and at a reasonable hour everybody went home feeling that it indeed been an evening well spent.

**Indians Visit Hastings.**

Harrispurg, Eebruary 10.—Among the callers on Governor Hastings to-day were Andrew John and March Pearce, Seneca Indians, one from southern New York and the other from Warren county, this state. Pearce is a grandson of Cornplanter the Seneca chief, and is a cousin of Solomon Obail, who came to the leglislasure with Andrew John last winter with a request that leglislation be enacted restoring to Cornplanter's descendants all of the land on which Oil City now stands. The general assembly appointed a committee which investigated the matter and reported that there was no ground for action.

The Indians brought with them to-day important letters and papers the existences of which were unknown last winter, but which have been in Pearce's posession for a long time. They comprise the original treaty between the Senecas and the commonwealth of Pennsylvania and the original survey and grant of the land claimed, together with a copy of the map and other important documentary evidence. The governor referred the Indians to Chief Clerk Gearhart, of the state department, who will lay the matter before Secretary of the Commonwealth Reeder.

**INDORSEMENT FOR PRESIDENT**

**Treasurer-Elect Haywood Says It Will Be Sought in Pennsylvania for Her Junior Senator.**

Washington, Feb., 10.—A movement is being started to presnt Senator M. S. Quay to the St. Louis convention as Pennsylvania's choice for the Presidency. Rumors to this effect have been current for some time, but in an interview, given out in December, Senator Quay apparently disposed of them by saying that he would not accept the nomination if it were tendered him on a silver salver. Since then, however, the National delegates were instructed to support him, and his friends are now preparing to make a concerted effort to have the delegates-at-large and as many of the district delegates as possible also instructed for Senator Quay. Lieut. Gov. Walter Lyon is one of the leaders in the matter, and it is said that his visit here on Saturday was in connection with it. State Treasurer-elect B. J. Haywood and Deputy Attorney General J. P. Elkin spent Sunday and to-day in Washington, and are both outspoken in the matter and in their advocacy of Senator Quay as a Presidential candidate.

Mr. Haywood said that resolutions favoring Senator Quay would be presented at all the county and district conventions which will be held prior to the State convention on April 23, and also at the State convention. Mr. Haywood attacked the idea that the presidential nominee should be taken from a doubtful state as erroneous in principle, and placing a premium on wavering and uncertain Republicanism He was enthusiastically for Senator Quay, and asked whether he would consent to be a candidate, said:

"I do not pretend to speak for him, and cannot say whether he will consent to be a candidate or not, but if the Republican party of Pennsylvania, through its county and State conventions, expresses a desire for his candidacy, as I think they will, I have no doubt he will yield to the wishes of those who have many times honored him."

**TWO MURDER TRIALS.**

**The Jury Will Decide the Fate of Martin Borza To Day.**

Greensburg, Pa., Feb. 12.—The Martin Borza homicide case, on trial here for three days, will be given to the jury tomorrow. The wife of the murdered man positively identified Borza as the one who fired the fatal shot. The defendant's fellow countrymen, as witnesses, tried to shield Borza, who testified that he was not near the home of the murdered man on the day of the murder, and beside he never carried a revolver. The dispute which led to the murder was occasioned over the refusal of the murdered man to hand around among a dozen foreigners a half pint of whisky.

The trial of Samuel Ritenour, who murdered his wife recently, will come up on Thursday. It will be followed by the trial of James Thompson, who killed a man named Henry.

**It is Better.**

Better to trust and get roped in
On gold bricks now and then,
Than fancy all the goods are tin
That crowd this world of men.

**The Exigencies of Poetry.**

Here is an epitaph inscribed on a tombstone in a Western New York cemetery:

The last remains of Mary Jones
Lies buried underneath these stones:
Her name was Brown, the name of Jones
Is used because it rhymes with stones.

And thereby made her grapple with trouble all her life,

And let some nobler, better man begin the human race.

## DISCOVERY OF GOLD QUARTZ

### Valuable Find of this Precious Metal in Centre County. It is

### WITHIN TWENTY MILES OF THIS CITY

**A Vein of the Good Old Yellow Stuff Found by a Prominent Citizen of Bellefonte—Specimens Shown.**

Gold has been discovered in Centre county.

A prominent gentleman Wednesday showed the editor some specimens of gold quartz that are very valuable. It naturally quite took the editor's breath and he could hardly believe his own eyes. But nevertheless it was there and seeing is believing. The most remarkable part is that this valuable quartz was discovered within twenty miles of Bellefonte. The exact location was not disclosed, however, or we would tell you all. The editor at first was rather inclined to think that he was being fooled but the veracity of the gentleman who gave him this information can not be questioned. Another fact is that this same man doesn't own any property near where this valuable quartz was discovered. He says there is a vein running fully a quarter of a mile into the very heart of the mountain. There, he says, the vein stops and only pockets here and there can be found. The gentleman who made this discovery at first kept it a secret with the hope of being able to lease the land in question, but failing in this he then disclosed the facts.

About a week ago a party of gentlemen were here and were scouring the mountains. What they were doing was a mystery until they were located near the very land where this quartz was discovered. They took with them some specimens but would say nothing as to their value. They have since disappeared and their whereabouts are at the present time unknown. But the one thing that is certain is that the gold is there and only waiting for some capitalists to mine it.

—The wave of religious revival which is sweeping over Clinton county has reached Beech Creek and the meeting now in progress in that borough is one of the most interesting in the history of the M. E. church. Wednesday night there were thirty penitents at the altar.

He was the father of a well-known family. John B. is the prominent attorney of Greensburg, Joseph B. is cashier of the First National bank of Latrobe, three daughters are nuns in the Mercy hospital in Pittsburg and another is the wife of W. A. Johnson, superintendent os the Latrobe Water company.

**The Indian Claim to Oil City.**

Harrisburg, Feb. 12.—Secretary of the Commonwealth Reeder, after seeing the Seneca Indians, who, as descendants of Chief Cornplanter, lay claim to the site of Oil City, to-day gave them a letter to Herbert Welsh, of Philadelphia, president of the Indian Rights society, in which Mr. Reeder set forth their undoubted claim. The necessary funds to take the Indians to Philadelphia have been raised.

**SAVED BY HER CORSET.**

**Mrs. Greaves Tried to Shoot Herself But Had on a Bullet-Proof Corset.**

Chester, Pa., Feb. 10.—The corset that she wore saved the life of Mrs. James Greaves, when she attempted to shoot herself on Fourth street at 8 o'clock tonight. Mrs. Greaves has not been living with her husband for several weeks, and just before the shooting she went to his place of business with a loaded revolver in her hand, and upbraided him for his devotion to another woman. A policeman passed them, and the husband told him that she was armed. She turned and ran, and when followed by the officer pointed the pistol at him, and then turned the weapon upon herself and fired. She was taken to the hospital, supposed to have been fatally wounded, but an examination showed that the bullet had penetrated her clothing, struck her corset and glanced harmlessly away. She was afterward placed under arrest. The shooting created a sensation on the street.

**An Eletric Locomotive**

There has just been completed by the Baldwin locomotive works and shipped to Pittsburg a new electric locomotive built on the Westinghouse plan.

This is the first engine which has been completed upon the new plan. The locomotive will be used at the Westinghouse Electric Works, at East Pittsburg for the test which is proposed to make preliminary to the expected revolution of the present system of railway transportation. The engine is to be used for heavy hauling in the East Pittsburg yards of the company and will be given a thorough test there at once in order to ascertain the capacity of its drawing power.

Contact buttons are placed at regular intervals between the rails on which the motive touches these buttons one after the other, thus keeping up while the engine is run a constant current of electricity, which travels from the rail through the [illegible] tons. After the engine has passed the button they are left unconnected, so that there is no danger then for contact with the buttons—Philadelphia Times.

**Carrying Concealed Weapons.**

Every man that carries a concealed weapon, it matters not how peaceable he may be or otherwise inclined, is a menance to the peace and good order of the community. The fact that he carries a pitsol or slug shot is prima facia that he intends to use it if occasion offers. The worst of it is that having possession of the weapon, he will sometimes court difficulty which otherwise he would avoid and will become the agressor where under other circumstances he would be on the defensive, and by running away, take his chances of living to fight a nother day. Again, there is the pangerous combination of whiskey and weapon. Give a drunkenman a pistol and nine chances out of ten there will be mischiefe. A well behaved orderly and soper man has no need of a weapon, and for his protection there ought to pe severe punishment for those who endanger his life by making arsenals of themselves.

Nearly 14,000,000 children attend the public schools of the United States, and 400,000 teachers are engaged in training the young minds.

**News From the Saratoga.**

W. H. Musser received a cablegram from the Schoolship Saratoga to-day which will be of interest to many. It says that the Saratoga landed at the Barbadoes Islands on February 11th. All the boys are well. The ship was detained at the mouth of the Delaware river for a week owing to disagreeable weather. This is the reason for the late arrival at the Barbadoes Islands.

Several Bellefonte boys are on the ship, among them being Mr. Musser's son, Dale C. The ship will remain at the above named port about five days.

Exposure to cold, damp winds, may result in pneumonia unless the system is kept invigorated with Hood's Sarsaparilla

**A Wonderful Work.**

The work of Rev. Lenoard Weaver, in the Evngelistic service conducted by him in the court house here has been blessed of God.

This town, remarkable for its conservatism has been wonderfully stirred. Christians of all denominations have been [illegible] kingdom.

The work still continues with increase ingrather than deminishing interest. The court house seldom has been crowded as it has been during these meetings and the close attention and maniested interestof the crowed audiences gave evidence from the first of the presence of the spirit of God. Not only have many found peace in beleving but many others have been deeply impressed, who it may be hoped will yet find joy and life in him who always preaches the Lord Jesus Christ.

Indigestion is often taken for consumption. The word consumption means wasting away and dyspeptics often waste away as badly as consumption. The reason people waste away is because either they dont get enough to eat, or they don't digest what they do eat. If the latter is your trouble, take Shakers Digestive Cordial. This will help you to digest your food and stop your loss of flesh.

Shakers Digestive Cordial is made from herbs, barks and the juices of fruit, by the well-known Shakers at Mount Lebanon. **Arrested for Smuggling.**

Philadelphia, Feb., 11.—One of the argest seizures of diamonds ever made by the Custom Officers of the United States, was affected to-day on board the Red Star Line steamer Rhynland. Twenty thousand dollars worth of gems were seized and Captain Leoswitz, master of the steamer, is charged with illegally attempting to bring the diamonds into the country, and a warrant for his arrest will be issued tomorrow.

For some time past the United States Treasury authorities have been convinced that diamonds were being smuggled into this country. The goverment agents abroad were instructed to investigate the subject and suspicion fell upon this trip upon Captain Loeswitz. When the Rhynland left Antwerp upon this trip the goverment agents aboard notified the Treasury Department that they believed Captain Leoswitz had gems aboard his vessel, which he intended to illegally bring into this country. Special Agent Cummings, of New ork, and Special Agent Gallen, of Philadelphia, were detailed to await the Rhynland's arrival. When the steamer docked to-day Agent Gallen went on board, and going directly to Captain Loeswitz room informed him that he wished him to deliver the box he had containing diamonds. Captain Loeswitz at first demurred and questioned the agent's right to make the demand. When threatened with immediate arrest he delivered to Mr. Callen a box containing $20,000 worth of as fine diamonds as have ever been brought to this country. The box was addressed to Herman Keck & Company, of Cincinnati, one of the largest importing jewelers in the country, and did not appear upon the manifest of the steamers cargo.

The gems were taken posession of by the Treasury Agents and the steamship was put under guard. Captain Loeswitz will be arrested to-morrow. Captain Loeswitz has been in the service of the Red Star Line for many years, and formerly commanded the steamship Rhynland.

**Hastings Says Quay.**

Harrisburg, February 11.—Governor Hastings declared in an interview to-day that he is in favor of Senator Quay for the presidency, if he is a canidate. Recently the governor wys assured by Senator Quay that if he disired the vote of the Pennsylvania delegation in the next national convention he Qnay would be for him but the governor declined. [illegible] knew there was no show for his nomination and was not hunting for complements, Senator Quay's candidacy would have a two-fold effect in this state. It would reunite the party in broad and lasting foundations, which every true republican would welcome, and would help to dispel the idea abroad in the country that because Pennsylvania is the leading republican protection state and always safe therefore she should never have a presidential candidate. Pennsylvania's republicanism should be the best argument in favor of a Pennsylvania candidate. I will be for Quay if he is willing to be a candidate."

A rule was granted by the court to show cause why a new trial should not be granted.

### Their Turn to Run.

A bear hunt which terminated in a manner at once disappointing and surprising, is described by the Portland Oregorian. It occurred in the mountains of Oregon, whither two gentlemen had betaken themselves for a vacation trip. Several days were spent in trout fishing. Then one of the men expressed a strong desire for a day's shooting, for large game. They set out the next morning bright and early, and after hours of fruitless tramping were about returning to camp, when suddenly they saw straight before them a brown bear sitting on his haunches under a blue berry bush and gorging himself with the berries.

Both hunters fired, and the bear, with an ugly growl, disappeared. The men hastened after him. but were unable to overtake him. For half an hour or more they followed the trail. Then all at once they came to a clearing. In the clearing was a cabin, and on the porch of the cabin sat the brown bear with one of his forelegs in a sling!

The hunters were greatly taken aback, as may well be supposed, but all were still more surprised when they saw a man hastening toward them with a gun. They got away in safety, and learned afterward that the bear was a family pet, the owner of which was naturally angry at finding it ill treated.

### The "Bad Man's" Sense of Humor.

A young man from way down east had gone to Denver armed with an old fashioned Allen revolver—"pepper box" that weapon was called in those days.

In a gambling house one night he became involved with a "bad man" in a quarrel and went forth with his "peppe box." The "bad man," who was really a tough citizen from the mountain, and who had not the remotest idea of fear, and who was always armed with a pair of big nives, threw up his hand in well feigned dismay and sid

"Heavens, man! You ain't going to throw that at me, are you?"

For the sake of his joke; he spared the young man's life, and to that one of the wealthiest and most respected citizens of Denver now owns the fact that he is doing business in the western metropolis.

He is a monument of that border man's sense of humor.—Chicogo Times Herald.

The Oval Ledger says that there is another boom in Collomsville owing to the fact that genuine coal has been discovered in the woods south of that little hamlet, which has caused quite a bit of excitement on the part of the inhabitants of that place. ### An Interesting Case.

Probably one of the most interesting cases ever before in the Centre County courts is that of Duncan and Barnes vs. Brinton which is now nearing a close after a two days' trial. All three parties live in Phili[illegible] and from 1886 until a few years ago were partners in business. The case was to recover for a note of $3000 payable to Thomas Barnes. The defendant claims this note is paid according to the article of agreement drawn up at the time of the dissolution of the partnership several years ago. A more detailed account of the case cannot be given at this time as the case has not been decided. All the parties interested are prominent business men of Philipsburg; two of the witnesses are well known newspaper people and two ex judges are employed as counsel. The case has aroused widespread interest owing to the nature of the charges. The closing arguments of the different attorneys were listened to by many people. Ex-Judge Krebs of field made a strong plea for the plaintiffs and ex Judge Furst saw that the defendants case was well presented to the jury. The suit will probably terminate to-day and then a more complete account ol the case may be given to our readers.

### The Thieves Escaped.

Pittsburg, Feb 5—The residence of C. Wagner, an aged and retired wagon-maker in O'Hara township, five miles from Sharpsburg, was broken into on Monday night and Mr. Wagner abused and robbed of a sum of money.

Monday night four masked men battered down the front door. As they entered the aged couple fled through the rear and became separated in the dark. Two of the thieves overtook Wagner and carried him back to the house. They then demanded his money and proceeded to torture him with lighted lamp. Finally Wagner produced his money bag containing $150 and the thieves left. Wagner aroused his neighbors and went on a search for his wife, tracing her by the marks of her bare feet in the half frozen mud to a stable half a mile distant. She was lying on the ground almost exhausted. Wagner and his wife are more than 74 years of age and suffered greatly. The robbers were tracked four miles where all traces were lost.

### Her Little House.

Sage physicians who make profound study of pathological symptoms ought always to make due allowance for feminine tricks and manners. In the progress of a prolonged typhoid fever case in which the patient was a clever young woman a local doctor expressed himself as satisfied with the gradual improvement of the patient with the exception that her tongue did not resume the clear pink hue of youth. The other morning, however, the daily inspection of that member as gracefully protruded by the maiden pleased the medical man very much.

"Ah," said he, rubbing his hands together in a gratified manner, "your tongue is looking much better, Miss Biddy. You will soon be all right."

After the doctor had gone the mother remarked: "Well Biddy, you certainly are better. Your tongue looks so improved.

"Yes'm" said the fair hoax, with a weary sigh. "I got tird of hearing the doctor talk about it, so just before he came I scrubbed it with my tooth brush."—Louisville Courier-Journal.

### Shouldn't Get Angry.

An old-time newspaper man says. "No sensible man should or ever does get angry because a newspaper man duns him for his money. A don is not an impeachment of a suscriber's integrity, but is simply an out cropping of a puplisher's neccessities. For instance. a thousand men owe a man from one to ten dollars; he has to dun them in order to pay his expenses. Instead of getting angry and stopping his paper because the publisher asks what is due, the subscriber should thank the editor for waiting so patiently, and pay up like a man.—Ex.

### The Proper Time.

When the most benefit is to be derived from a good medicine, is early in the year. This is the season when the tired body, weakened organs and nervous system yearn for a building up medicine like Hood's Sarsaparilla. Many wait for the open spring weather and in fact delay giving attention to their physical condition so long that a long seige of sickness is inevitable. To rid the system of the impurities accumulated during the winter season, to purify the blood and to invigorate the whole system. There is nothing equal to Hood's Sarsaparilla. Don't put it off, but take Hood's Saraparilla now. It will do you good. Read the testimonials published in behalf of Hood's Sarsaparilla, all from reliable grateful people. They tell the story.

### A BAD ACCIDENT.

**A Passenger Train Ran Into a Land slide Last Night.**

Wilkesbarre, Feb 7—Passenger train No 11, on the PENNSYLVNIA RAILROAD due in this city at 8 o'clock p. m., ran into a land slide near Retreat tonight and the locomotive and tender were hurled down the embankment.

The injured are George Roth, engineer of Wilkesbarre, leg scalded and bruises about the body.

Jacob Shutt, fireman, of Wilkesbaree, badly bruised and shaken up.

The train, which was in charge of Conductor Zach Moyer, of this city, left Sunbury this evening at 5 o'clock. On account of the severe rain of Thursday, Engineer Roth while making his time kept his engine under control and carefully looked out on the track. At a point just below Retreat, twelve miles from here, Roth saw a "slide" ahead of him and at once shut off steam and applied the air brakes. The train was under too much headway, however, to be stopped, and the locomotive, tender and one truck went over the bank and the baggage car was derailed. The passenger coaches, which were well filled with passengers, fortunately did not leave the rails, and beyond a severe shaking up and frightful scare they are all right.

As soon as possible aid was given Engineer Roth and Fireman Shutt and they were carried into the baggage car. Word of the accident was sent to the headquarters at Sunbury and a train was at once ordered and sent from Nanticoke to transfer the passengers and bring them to this city A wrecking train was also sent to the scene and it is expected that the road will be open for traffic at an early hour tomorrow morning.

### The Local Merchant.

(From the Farm Journal for February.)

The Farm Journal has always advocated sustaining local business men and home industries. When these are injured or antagonized without good cause. business is driven to the large cities or towns and farmers suffer in the end. The country store, where everything, from a shoe string to a silk dress, and from a husking peg to a reaper, can be bought, is an institution that should be fostered in every farming community An honest and business like merchant is the farmer's best friend, and should be regarded so and so treated. We believe in co-operation and co-operative buying, but this may often be done to mutual advantages through the local merchant. The Farm Journal platform demands fair play for everybody, not skipping the country storekeeper.

### Nothing Disastrous Expected.

Pittsburg, Feb., 6.—To-morrow's edition of the American Manufacturer will say concerning the iron and steel market: Trade is less active and in some of the main lines of the market, lower figures prevail. This is mainly in pig iron and soft steel. There is not, however, apprehension that anything like a disastrious drop is coming. It is generally believed that the opening of spring will bring a general increase of business and a prosperous trade in iron and steel. The bar, merchant steel, rod and pipe mills all have better prospects ahead than for several months, while plate and structura iron makers have booked large contracts. The iron trade is quietly shaping itself for greater and more general activity.

### Her Turn at the Falsehood.

"You are the only man I ever loved," she protested.

"How dare you tell that falsehood?" demanded he fiercely.

"Why not? It's leap year."

With which she smiled a hard, advanced smile.—Detroit Tribune.

### NEW TELEPHONE COMPANY.

**Millheim and Brush Valley Have an Independent Company.**

For years all parts of the county have been in communication with each other through the medium of the telephones, except Brush valley and the lower end of Penns valley. There is scarcely a county in the state to be found where the phone is more used than in this county, and not being in communication with the towns down the valley has been at times a source of annoyanse and regret.

This will likely be done away with in the future as a company was recently organized at Millheim under the head of the Millheim Electric Telephone Co.

The company will erect a line from Millheim to Rebersburg, and ultimately connect Madisonburg. From Millheim the line will extend to Coburn, and other surrounding towns. An effort will be made to combine with the Bell telephone company and connect the wires at Spring Mills, thus placing the line in connection with all parts through the Bellefonte exchange. If this is not successful the wires will be extended to Bellefonte and connection thus had with the county seat.

The line between Millheim and Rebersburg is being now erected. Poles are on the ground, and long distance poles purchased. Unless absorbed the new company promises to be a formidable rival to the Bell company.—Centre Hall *Reporter*.

### Bullet Hole in the Skull.

Steubenville O., Feb. 6—A body, supposed to be that of William Pyatt, or Hyatt, was found to day in the Creek at Bloomfield tunnel by E. L. Crow. He mysteriously disappeared several months ago while he was employed by S. Carparis as a timekeeper over the laborers at work on the tunnel. The corpse had a bullet hole in the forehead, and opinion is divided as to whether it was a case of murder or suicide. Some of the laborers are known to have made threats against Pyatt just previous to his disappearance. The coroner has gone to the scene to make an investigation.

Gilmore says the shooting was the result of drunkenness.

### A Terrible Accident.

Bristol, Conn., Feb. 6—A most appalling disaster occurred here shortly after 9 o'clock to-night in which twenty workmen were precipitated into Pequatuk river from the East Bristol bridge and from ten to twelve of them are probably lost. This afternoon the structure was found to be shaky and the 4.22 train on the New England road had a narrow escape from wreck as it crossed on the way to Hartford.

For some time the bridge had been looked upon with suspicion and at present a new bridge was in process of erection and was almost completed. It was close along side the bridge which was to-night carried away. After the eastbound passenger train had passed to-night one side of the old bridge gave away to the current and with a crash went boiling down the stream The managers of the road immediately sent a wrecking train from Hartford which arrived on Forestville side of the Pequatuk at 5.45. There were forty men on the train, all of whom had come from Hartford They were immediately set to work and were progressing satisfactorily by the aid of lanterns up to 6 o'clock. To facilitate the work half of the men were located on the remaining portion of the old structure. At 9 o'clock they were passing iron girders to another gang of men on the next bridge.

The water of the river had been continually rising since morning and at 9 o'clock was higher than ever known. The water had risen two or three feet since the first crash at 5 o'clock and the remainder of the bridge was really tottering while the men were courageously standing upon it. The outer end suddenly sank and with a crash, with its human freight, it was carried off in the boiling current.

The half of the gang which had been resting on more solid foundation were horror stricken to see their companions so suddenly precipitated to death.

Two men were fortunate enough to reach shore by their own exertions. A third was saved by the workmen. Finally a forth, a fifth and sixth were saved. Others could be seen struggling away in the mass of debris, while a number never came in sight after the bridge went down. The night was darkness itself and with the boiling stream overrunning its banks on both sides, efforts to rescue in the darkness were fraught with the greatest danger. Seven men were dragged out alive, but of these several were seriously hurt. The only body recovered up to midnight was that of Daniel O'Brien, of Hartford, foreman of a section gang. At midnight 11 men are still missing.

### Shot at the Witness.

Uniontown, Feb 6—Mollie the 14-year old daughter of Albert Wolf, who lives near Greenville furnace, W. Va., just across the line from Pennsylvania, was shot at last evening by a man who stepped from behind a tree while she was going for the cows. The powder from the pistol burned her face and the bullet passed through the fleshy part of her cheek, inflicted a painful wound. It is believed that the shooting was done by a friend of the Smitley gang, who were recently sent to the West Virginia penitentiary for shooting Sheriff Shaw, of Preston county. The Wolf girl was one of the witnesses against them in court.

### He Put Two Bullets in His Heart.

Pottstown, Feb 6—I H Bleim, a young man of this place, committed suicide by putting two bullets through his heart. The deceased was a shoemaker by trade and was unmarried. He retired to his room at the usual hour and when his brother came in he noticed a light in Isaac's room. He entered and found his brother lying dead on the floor.

### KILLED ON THE PENNSY.

**Edward O. Smith and Etta Roland Run Down by a Train.**

Greensburg, Feb 7—Early this morning Edward O Smith, of Jeannette, manager of the assorting department of the specialty works at Grapeville, and Etta the 14-year old daughter of Edward Roland, of Jeannette, were on their way to the works when they were run down by the second section of the Western express on the PENNSYLVANIA RAILROAD. Both were instantly killed. Smith's body was shockingly mangled, and the top of Etta Roland's head was torn off. They were walking along the track at the time and had stepped out of the way of an approaching freight train without noticing that the express was thundering along on the other track. They had stepped directly in front of it, and they heard and saw it too late Smith made a desperate effort to save the girl by dragging her from the rails, but before he could do so they were struck by the pilot of the engine and their bodies thrown into the air. The train was halted and the corrpse taken to the residence of the families in Jeannette.

This makes the 10th death in the Roland family and its near connections from violent causes. Albert Roland, Edward's uncle, and his son Emmett, were killed on the railroad near West Newton, and Stre. big and Hamilton, sons-in-law of Albert, met a similar death. His daughter Belle. was murdered by a jealous lover named Neibert, and five other relatives were killed by train or in the mines

### Young Soldiers.

In view of the fact that the United States has been threatened with war for some time, Prof. J. R. Hughes the able principal of the Bellefonte Academy, has organized a mihtary company among the students. From early in the morning until late at night the deafening sound of musketry can be heard resounding from the Academy hill. Owing to the thousands of flying bullets it is worth one's life to venture within half a mile of the Academy campus. Direct telegraph communication has been opened up betweed Col. Hughes' quarters and those of President Cleveland. All the merchants in town have ordered large supplies of handkerchiefs for the boys' mammas in case this brave military company should be called to the front.

### "There Shall Be No Parting There."

We clip the following from the "L. A. W. Bulletin and Good Roads." It may serve as a pointer for the Bellefonte Bloomer girls who have any idea of going to Heaven. It is as follows:

The Bloomer girl her skirts must don
Ere she climbs the golden stair,
For she can't get in with her kickers on;
"There shall be no parting there."

### Preached Four Sermons.

Rev. Leonard Weaver the evangelist, preached four sermons in Bellefonte on Sunday: in the morning he occupied the Methodist pulpit, in the afternoon at the Court House, in the evening at the Presbyterian church and afterwards at the Court House. Large crowds were present to hear him at each sermon.

—The fire-clay works at Patton, which were burned on the night of December 27, are being rebuilt, and it is expected they will be ready for work in a short time.

## GRAVEL CURED.

(Philadelphia, Penn., Item.)

A healthier, heartier, happier man than John J. Neill, of 2437 North Eighth street, Philadelaphia, could not be found in a day's search. The fact that he is still alive is a constant wonder to his friends.

In the fall of 1889 he began to suffer indescribable miseries from stone in the bladder. Consulting an eminent physician in Philadelphia, he was told that a surgical operation was neccessary. So much did he dread the result, for if unsuccessful it meant death, that he put off the evil day as long as possible. While in this frame of mind, he heard of

## Grave Complications

**Often Arise From Little Things—Mr. James Roberts, a Scranton Citizen, Has an Experience.**

Little things are constantly occurring that we do not attach much importance to at the time. They don't seem to amount to much, and perhaps only annoy us a little while. We unfortunately cannot see what effect they are to have in the future.

Mr. James Roberts, a citizen of Scranton, residing at 1605 Lafayette street, told our representative something of his experience that clearly demonstrates what a little thing may grow to if it is overlooked. It seems Mr. Roberts caught a severe cold about three years ago, and at the time chills followed, and he had severe sweating attacks, which were often so bad he found it necessary to change his clothes. The complaint grew worse and bladder difficulties set in. A soreness and pain existed in the lower portion of the abdomen. Urinary troubles followed. The urine was dark colored, depositing sediments. The kidneys were not performing their proper functions, and this was at root a kidney disorder. It was a difficult matter to even rise from a chair to a straight position without causing pain and for a great portion of the time he was rendered incapable to work. Then he noticed the words of praise sounded for Doan's Kidney Pills, and getting a box at Matthews Bros'. drug store he began taking them. With the second day of their use he felt a change for the better, and now he gets around and is working with comparative ease and comfort. Most of the bad symptoms have entirely left, and they are all rapidly disappearing. Mr. Roberts is still taking Doan's Kidney Pills. He says that they are curing him, and that the greatest remedy of its kind is Doan's Kidney Pills. No remedy has ever been so successful with both old and young in righting the kidney's action when deranged, and no medicine ever compounded has received such words of praise as Doan's Kidney Pills. 'Tis easy to prove our statements. Watch for them may be neighbors of yours, whom you cannot doubt, no matter how skeptical you may be.

Doan's Kidney Pills are for sale by all dealers. Price 50c. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Justice Brewer, President of the Venzuela Boundry Commission, has made a public statement denouncing the stories published in sensational uewspapers about the luxury and extravagance of the Commission. Justice Brewer says, and his Commission hasbeen very economical, and that he expects it to continue to be economical until its work is completed.

Delagate Catron, of New Mexico, has received many congratulations for the cleverness he displayed in pushing his bill, against prize fighting in the territorys and the District of Columbia. through the House and Senate witeout delay or even a single adverse vote. The bill became a law as soonas it reached Mr Cleveland who for once agreed with Congress.

There is a shadaw of doubt about the leading position Maine holds in this Congress. With Senator Frye Pres. pro tem. of the Senate, Senator Hale, Chairman of the Printing Commitee, Speaker Reeb presiding over the house, and Representatives Dingley, Boutelle, and Milliken Chairmen of the three important House Committies, surely Maine may be said to be in it.

### WASHINGTON LETTER.

From our Regular Correspondent.

Washington, Feb. 10th 1895.

Tte caucus of republican Senators which nominated Mr. H. L. Grant, of N. C. to be Sergeant-at-Arms, and Mr. Alonzo Stewart, of Iowa, to be Assistant Doorkeeper, authorized Senator Sherman to call up the question of the election of these officers whenever he sees fit, but he is not expected to do so untill assured that they can be elected. In other words, until certain that at least one populist will vote with the republicans. That leaves matters in an indefinite shape. Senator Frye has been unanimously elected President pro tem., but when the other repulican officials can be elected nobody knows. It may be to-morrow; it may be never.

The outlook for the House tarriff bill is not encouraging, no matter whether Senator Quay's resolution, to recommit the free coinage substitute, which the Finance committee last week reported, to the committee, be adopted or not. If adopted there is nothing to show that Seator Jones, of Nevada, who holds the balance of power, will allow anything but a free coinage substitute to be reported from the committee. And if it isn't adopted, there is little hope of getting the tarlfi bill through the Senate.

The House will this week refuse to concur in the Senate free coinage substitute for the House bond bill, and the substitute will be sent to conference, where it is likely to remain.

The syndicate represented by Mr, J. Pierpont Morgan will get about one-third of that bond issue, simply because its bid for the entire issue was a tiny fraction higher than that put in by another New York banker. Whether Mr. Morgan made his close shave by reason of advance information (he probably did) is a question, but the most important fact connected with Mr. Morgan's bid was that, although the market quotation for these bonds was a little lower than it was last year when he made that private deal with Mr. Cleveland for the $62,000,000 bond issue, and that these bonds will have one year less to run, his bid for these bonds was about seven cents on the dollar ($7,000,000, in all) in excess of the price he paid for the same bonds last year

Has the Senate a right through a select committee to investigate the election of members of a State Legislature which elects a U.S.Senator? That is the problem which has been referred to a sub-committee of the Senate Elections Committet, and the answer will probably determine what action the committee will take upon Senator Allen's resolutions for an investigation of the Alabama legislative election which preceded Senator Morgan's last election to the Senate.

The vote of forty to twenty eight, by which the Senate referred the resolution provideing for the distribution of several of the regular appropriation bills among committees' (they now all go to the Appropriations committee) to the Committee on Rules with instructions to report back on the first day of the next session, was a great compliment to Senator Allison, who is chairman of the Committee on Appropriations. There is little doubt that a majority of the Senate would have voted for the change had it not been for the fear that such action by the Senate at this time would have been construed by some people as a reflection upon Senator Allison.

The report of the Nicaragua Canal Commission is not encouraging to Congressional action on the canal; at least, not on the lines heretofore proposed. In addition to nearly doubling the estimate of the cost of its construction, the report says plans must be changed or it cannot be constructed at all. A majority of both branches of Congress favors the construction of the canal, but they are far from agreeing as to just how it should be done. This will result in delaying anything like positive action.

The revival service at the Court House on Monday evening drew an immense crowd of people. The meeting was one of interest and quite a few converts were made. Weaver was in charge and fairly made the Court House ring with his wonderful voice. His talk was an inspiring one and after the general meeting a number remained to hold a private prayer meeting with him. Altogether the meeting kept up more than three hours. The House was crowded and everybody stayed until the meeting was over.

### Coke Production Dropping.

Uniontown, Pa., Feb. 12.—There was a slight improvement in the coke business last week. The shipments increased 85 cars, but production fell off 2,200 tons. During the week 413 ovens were blown out, reducing the number of active ovens to 13,143. The production was 127,598 tons, against 129,880 for the previous week, and the shipments were 6,450 cars, against 6,365 for the previous week. A number of idle furnaces will be put in operation this week, and the outlook for improvement in the coke business is good.

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease **Consumption**, is anxious to make known to his fellow sufferers the means of cure. To those who desire it we will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for **Consumption, Asthma, Catarrh, Bronchitis** and all throat and lung maladies. He hopes all sufferers will try his remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address,

*The following are the prices charged for announcements in this column: Congress $10.00; Assembly $8.00; Sheriff $8.00; Treasurer $8.00; Register $6.00; Recorder $5.00; Commissioners $5.00. All candidates are required to pledge themselves to abide the decision of the Republican county convention.*

### Gigantic Coal Trust.

The Williamsport *Times* says: The Beech Creek railroad, one of the greatest coal roads in the country, controlling 180 miles of trackage and capitalized at $11,000,000, is one of the eleven railroad corporations which have united in the great Morgan-Vanderbilt coal trust. The coal trust now controls the entire anthracite output, and has "started the ball rolling" by raising the prices of hard coal from $3.08 to $4 per ton. The annual output of hard coal approximates 46,000,000 tons per year, and the profit to the trust will be $36,000,000 annually.

The eleven corporations control 24,530 miles of railroad and their aggregate capital reaches the enormous sum of $1,900,000,000. It is the object of the trust to crush the middlemen in the coal business, and thereby sell the coal direct from the producer to the consumer, but the increased prices will cause untold suffering among the poorer classes.

### Imbedded in a Tree.

A rare Indian relic is now on exhibition at Harder's gun store in Williamsport. It was found near Smith's Mills, Clearfield county, by Anthony Flynn, and is a scalping knife imbedded in a piece of the trunk of a pine tree. The handle of the knife had long been decayed and the eight inch blade was rusty with age. The tree in which the unique relic was imbedded was out near the headwaters of Clearfield creek, in Cambria county, The Sun says the blade was imbedded in the tree twenty feet from the ground, and as the tree counted 175 rings from the point of the knife to the hilt it is certain that the curious weapon had been fast in the tree for more than 200 years. The knife was undoubtedly the posession of some Indians who obtained it through barter, as its stamp, a crown and bottle, would indicate that it had been imported from England in the early colonial days. There is much inteaest connected with the relic, and it is highly prized by its owner.

### A Problem.

Three farmers went to market with eggs. Farmer A had ten eggs in his basket. Farmer B had thirty in his basket. Farmer C had fifty eggs in his basket. That evening each sold a portion of his stock, receiving the same price per egg. The next morning eggs advanced to three cents each and they each sold what they had left. When they got home they found they had sold their eggs at the same price per egg and had each received the same amount of money. How many eggs did they sell the first day and at what paice per egg; how many eggs did they sell the second day at three cents apiece, and how much money did each receive in all.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interests of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

### Here is an Example.

To those who are unacquainted with the facts, we will just relate a small intance of how the Pennsylvania Railroad has dealt with business men.

Some years ago when a party of our busines men contemplated starting up the Glassworks again they went to Philadelphia to confer with the Pennsylvania Railroad officials in regards to a freight rate from Bellefonte to Chicago. They saw the officials, a rate of 18 cents was fixed. The railroad officials would not sign a written agreement to this rate but said they would no by the agents as to the rate The party returned home and commenbed operations. the first few shipments went all right at the 18 cents rate soon the rate was raised to 20 cents and then to 22, 24, 26 and finally to 28 cents. What was the result? the Glassworks was compelled to shut down. "Frozen out by the Pennsylvania that's the proper way to term such a proceedings.

How nicely the Pennsylvania kept their word is above shown. They simply robbed the glass works people of all the profits and compelled them to go out of business. This could mean but one thing: the Pennsylvania throttled our business men until they could no longer do business. Citizens of Bellefonte had their money invested in these works. It was stolen from them. A high freight rate robbery is just as much of a crime as any other robbery.

This is only one of many instances where our people have been bled by the Pennsylvania railroad. We know the facts and they will all be put before the public.

Men who patronize a gang of robbers can and have not the welfare of their own city at heart.

### A Cabby's Trip.

A sensitive cab horse and a four wheeler drove up in front of a theater and a portly old gentleman alighted.

Having handed the cabby his strictly legal fare, he turned around to make his way into the building.

"Excuse me, sir," said the weather beaten cabby, "but would yer oblige me by not passing in front of the hoss? If he sees what weight he's pulled for a bob he'll simply drop down dead."

### "Let Us Cross Over the River

and rest in the shade of the trees" Thus spoke the dying hero, Stonewall Jackson, a man whose conception of war was so heroic, so chivalric that friends and foes praise him alike.' How many dispirited women feel that they would "to cross over the river, and rest." Every day brings its measure of annoyance and pain. If only they could be made to realize the inestimable comfort and physical strength to be found in Dr. Pierce's Favorite Prescription, they would soon feel that "their ways were ways of pleasantness, their paths were paths of peace."

Mrs. S. E. Bongey, of Red Oak, Stephenson Co., Ill., writes; "One of my neighbors was very sick during her "change of life." After advising her to take Dr. Pierces Favorite Prescription, I visited her a few days ago' and she told me she was so strong she could work all day long without getting tired, and says she was greatly benefited. I know many afflicted women who have been cured by your medicine.

### He Knew Mamma.

The eldest boy of the German emperor is a little bit of an enfant terrible. One day the little crown prince was being laboriously catechised by the chaplain, who continually impressed him that all men are sinners. "Well," exclaimed the boy impatiently, being wearied of those admonitions, "father may be a sinner, but I know mother isn't."

Mistress—If I catch the coachman kissing you again, you will lose your place.

Maid—He wasn't kissing me again, mum. It was the last time when you saw him.

## Betty's Career.

Seventeen times had Betty watched the apples blossoms drift and the apples come ripen and fall. For almost as many years she had felt the ivory keys of the piano her especial friends, and they had assurred her that when she was old enough they would tell her the vast secrets of the old piano's soul.

Betty's mother also dreamed of that bright time when Betty should awake the world; when Betty should come forth a radiant, smiling, gracious vision, bowing kindly the throng who flocked to hear her.

Captain Trevelyan was a tremendous fanatic on many subjects. He had a wild passion for music, though he did not play a note himself.

He chanced to meet Betty and Betty's mother, Mrs. Delamater, at a musicale, and having heard Sweet Seventeen play and beheld Sweet Seventeen's rich promise of beauty he inquired into her prospects for a course at Leipsic, and could she go as she ought.

Mrs. Delamater sighed and shook her head.

"She ought to go. She must go!" exclaimed the enthusiastic captain· "Madam, I shall consider it the greatest possible honor if you will permit me to send your daughter to Germany and give her the opportunity such talent deserves and to send you, madam to look after her and care for her. I don't mind telling you that when she is creating a furore and has reached that point in life called success, then you may repay me every cent."

Then followed three charming years in Leipsic—three years with smiling eyes and golden crowns—and Retty studied carefully and happily, experiencing only the present and thinking nothing of the future.

They went twice each week to the opera then there were the carnivals on the ice and just as Mrs. Delamater began to dream of Betty's professional debut on her return to the States Betty did the unexpected and inconvenient—she fell in love.

It was horrid in her, and yet Betty was happier than she had ever been in her life and could not bring herself to despise the young flaxen haired German. who had unblushingly done all in his power to lead her to adore him, while he helped her to master German verbs and idioms, taught her to skate and sung tender German ballads to her accompaniments.

Fritz Leiber was at Leipsic taking vocal instructions and enjoying himself, No one knew who he was and he never told·

When Betty with dramatic fever, told him he must give her up, and they must part and meet no more, he would throw back his handsome head and cry, "Ach, mein Hebcoen, nicht wahr, nicht warh!"

To his confidential friend. and fellow student he confided the plan of action mapped out in his mind.

He intended to wait till "die mutter" was more inclined to be friendly and then explain who he was and ask for Betty's hand. The friend agreed that was a good idea.

Meantime Mrs. Delamater had a little plan of her own. The three years were now gone, and she would seal away to the States with the rebellious Betty, and that long dreamed of furors should be created

By an almost superhuman effort she got Betty out of Germany without her seeing or being able to communicate with Fritz, and, with eyes red with weeping for him and after difficulties galore, she was finally on the ship sailing ror New York.

Betty, who ordinarly was never seasick took to her bed and refused to get up. Fritz was in Germany.

Happily Captain Trevelyan did not meet them in New York, and Mrs. Delamater felt thankful for the time thus given her. She went to Washington with her daughter and took as nice a house as she could afiord. Retty began by taking pupils in music and made an excellent teacher.

Captain Travelyan was duly astonished at the change in his once ardent youn protegee. He was blunt and old fashioned in his expressions. He meerly said, "Well, she seems to have petered right out.

This was the last straw, and Mrs. Delamater broke down, but not to the extent of explaining about Fritz.

Meantime Fritz was wondering what could have made him so stupid as to have deferred his explanations so long

The terriable change from their comparative affluence in Germany and there additional wants since traveling and seeing and having so much made their present mode of living doubly unbearable, while the great disappointment each felt, one in her daughter's career and the other in loosing her lover, gave rise to many a bitter verbal skirmish that only resulted in widening the breach between them·

One evening, when Captain Trevelyan was at the house, he somewhat startled them by announcing that he was going to Europe.

Betty grew pale, and yet had presence of mind enough when her mother left the room for a few minutes to ask him if she might give him a note to one of her friends who, she thought, would make it pleasant for him in Leipsic.

(Continued Next week.

—The soothing lung-healing virtues of the newly cut pine are all embodied in Dr. Woods' Norway Pine Syrup, the sovereign remedy for coughs and colds, and lung troubles of all sorts.

If a woman is not attractive, there is something wrong. Any woman can be attractive if she will make the effort. It isn't altogether a question of beauty. It's largely a matter of health. The bloom and glow of health go far toward bringing beauty. A clear skin, bright eyes, red lips and the vivacity which bodily good feeling brings, will make even a homely woman handsome.

Half of the women one meets are semi-invalids. Failure to heed the warnings of outraged nature—failure to give the help needed by the most delicate and sensitive organs—little troubles ignored until they have become dominant—disease allowed every chance to spread and gain a settled seat—these things bring about the sunken, circled eyes, the hollow cheeks, the pale and sallow skin, the flabby, strengthless flesh, which characterize the appearance of the woman who suffers from "female weakness."

Dr. Pierce's Favorite Prescription has cured thousands of suffering women. It is a perfected specific for the troubles peculiar to them. It eradicates the disease, stops the dragging, life-sapping drain, and in a perfectly rational, natural way, builds up the wasted strength. It will bring buoyant health. It will put roses into pale faces—solid flesh in sunken places. It does away with the humiliating examinations and "local treatment" so much dreaded by modestly sensitive women. For thirty years, it has been successfully prescribed by Dr. Pierce, Chief Consulting Physician to the Invalids' Hotel and Surgical Institute at Buffalo, N. Y.

### An Indian Taboo.

The penalty for violating, even unwittingly, the taboo of a gens is a visitation of sores, livid spots, inflammation of the eyes and even blindness. The In-shtasunda, or thunder gens, do not touch reptiles, toads, beetles. Some years ago the vegetable garden of the Omaha mission was visited by che potato bug. The good missionaries in charge engaged the children in the work of extermination by offering a bounty of 5 cents a quart, solid measure, for defunct bugs.

As the extention of the species became imminant, some of the young wits adulterated their bugs by the addition of spurious beetles. About this time one of the little girls became covered with sores. Her parents, hearing of it, came in consternation to the mission. She belonged to the thunder gens, and the child's bug income ceased at once. She had unwittingly been carryingly on a traffic in her taboo.—Alice C. Fletcher in Century.

### Two Childre Killed.

BROOKLYN, N. Y., Feb. 9.—Two children were instantly killed and one young man was seriously injured as a result of a fire which occurred at 5 o'clock this morning in a cottage on Fort Hamilton avenue near Eighty-fourth street.

The dead are: Minnie Specht, 9 years old; Harry Botzen, 7 years old.

Injured: Edward Hill, 18 years old, fracture of the thigh, severe scalp wounds and contusions of the body.

The building was totally destroyed, but a brick chimney was left standing after the house was burned. About 2 o'clock there were several children playing about the ruins, when suddenly, without any warning, the chimney gave way and fell to the ground with a crash. Minnie Specht, Harry Botzen and Edward Hill, who were playing near the fire-place, were buried in the ruins. The greatest confusion followed. Children screamed and ran for their lives from the house.

The police of the Twenty-fifth precinct were called out and went at once to work to recover the bodies. The first one brought out was Hill whose groans attracted attention. After an hour's hard work the dead bodies of Minnie Specht and Harry Botzen were removed from beneath the debris.

McCLURE'S MAGAZINE for February takes its first grasp of the reader's attention with eight portraits of Lincoln (several of them very rare), some twenty other Lincoln pictures, and an account, abounding in vivid personal details, of Lincoln's misfortunes as a country merchant; of his entrance into the legislature, and the beginning of his acquaintance with Douglas; of his work as a village postmaster and a deputy county surveyor, of his study of Shakespeare and Burns and a copy of Blackstone found by chance in a barrel of refuse; and of his romantic courtship of Ann Rutledge, and his affliction at her death shortly before the time appointed for their marriage.

The art feature is Mr. Will H. Low's articles on the great English painters of the early part of the century, with many splendid engravings of their pictures. To any one interested in art these discriminating articles are invaluable. The illustrations have been chosen with rare taste; they are interesting as pictures, and as the examples of artists, who are critically and biographically presented in the text. The fiction is especially notable, including a charming romance by Anthony Hope, a pathetic and powerful story by Ian Maclaren, and a characteristic tale from the unpublished manuscript of Robert Louis Stevenson, half fairy story and half fable.

### Table Talk.

Housekeepers will be especially happy over the February number of Table Talk (the American authority on culinary matters), in which are given many recipes in the "Housekeeper's Inquiries," "Dainty Cakes for Afternoon Teas," "Creole Recipes," and "Sauces for Meat and Fish," the latter by Dora Morrell. "A Few New Books for the Housekeeper's Library," will also be found interesting, and there are, as usual, new and fresh menus for every day in the month. Mrs. Burton Kingsland tells of several enjoyable "Februaty Fetes," while Mrs. M. C. Myer describes two new forms of entertainment, which, when tried, will be found to produce most delightful evenings. Other articles are "Dentition and its Attendent Disorders," by Dr. H. H. Hawxhurst; "Fashionable Luncheon and Tea Toilets," by Tillie May Forney; "Some German Methods," given from experience, by Lucy A. Geise Our readers are invited to send for a sample copy, which will be mailed to them free upon application to Table Talk Publishing Co., Philadelphia, Pa.

### DUN & CO.'S REPORT.

**What the Well Known Firm Has to Say in Regard to Business.**

New York, February 9.—R. G. Dun & Co.'s review this week says: Failures for the week have been 223 in the United States against 281 last year, and 68 in Canada against 58 last year.

The wonderful success of the popular loan alters the face of events. January operations become ancient history of the nation moupts above all doubts and fears to a solid certainty that the people can and will uphold their goverment. The influence of this event upon all manufacturing and all trade cannot be lightly estimated. It strips the silver situation of all its power to hurt. Its puts the treasury upon ia safe basis for the time weather congress does anything or not. It notfies foreign nations that the United States have power as well as purpose. It unlocks millions o gold which have been gathered in preparation, brings directly several millions of gold from Enrope, and stimulates the auxjety of foreign investors to obtain American securities.

With such a revolution in business suddenly, effected, the customary records of the past week and month are of less value than usual. But there have been signs of improvement in the iron manufacturer Although the average of prices is nearly 1 per cent, lower this week, and orders for wire nails are stimulated by a decision to advance the price again March 1. There s also a more active demand for plates and sheets. Southern competition lowers coke iron in Chicoga and preyents advance at the east, while sales of last year's speculators in the Pittsburg region still depress Bessmer. The ore pool is expected to fix the price for the year at $4 or possibly $420, and the coke pool still reduces the output. Speculation has raised copper to 1014 cents, with sales of 6,000,000 pounds, and tin to 3½ cents and led to 3.10 cents with large exports of Mexico. The boot and sho e manufacturer does not gain a yet, leather being about 1 per cent, lower for the week. Hides are depressed by tight money, though in light demand and adout 4 per cent. lower for the week Sales of wool have been four and a half million pounds, obainst 5,192,000 las year. and with reported reduction in clay worsteds and mixtures. The orders for other woolen goods are still unusually de layed.

The cotton mills continue generally active, though talk of decreasing the production still continues. print cloths do not rise above 2¾ cents and some goods tend lower. Speculation in wheat has again lifted prices. The speculative market has been largely influenced by rumors of injury to the coming crop and by foreign advances. Corn has been comparatively quiet. Cotton is practically unchanged, receipts continuing to accord with a yield of about 7,000,000 bales for 1895. The stock market has been growing stronger all the week until the sale of bonds, though yielding a little on relizing. Railroad earnings in January have been 10.6 per cent large. than last year, but 8.3 per cent. less than 1893 and the tonnage east bound from Chicago was in January nearly one per cent larger than in 1893.

### Why Not In Pennsylvania Too?

At the present time the wheelmen of New York State are very much exercised over the outrages practiced on wheelmen by different railroad companys. They are trying to force a bill through the legislature to be released from this unjust demand. Why would it not be a good idea for the Pennsylvania wheelmen to agitate this matter too? Surely they need this legislation just as much as those in New York. It is a well known fact that it was not until the wheelmen became so strong that these railroads commenced their distardly practic in demanding charges for carrying wheels. The socner the Pennsylvania wheelmen take this matter into their own hands the sooner they will be released from this unjust railroad decision

### How to be Womanly.

Millie Newgirl—I know my eye is black, mamma, but you ought to see Maud Nouveau's—both closed, and her check is all puffed. Besides, she hit me first.

Mrs. Newgirl—Never slug except in self defense, darling. Remember this rule always, and you will grow up a true, womanly woman.—New York Herald.

### What a Baby Can Do.

Friend—I don't understand why you and your husband should have separated so soon.

Mrs. Aftermath—It was all owing to the baby's temper.

"Mercy on us! How could that be?

"We couldn't agree as to which one of us the baby took after."—New York Weekly.

### An Easier Way.

"No," said the elderly lady, "I don't think that woman is advancing the right way. She is getting to a point where she is liable to be imposed upon."

"Don't you think she ought to vote?"

"Of course if she can't do any better. But in my younger days a woman made up her mind how she wanted a vote cast and sent her husband to the polls to cast it while she staid at home and buised herself with ever what she thought proper. That's what I call woman's rights."—Washington Star.

### In For It.

The captain turned pale,

"Is there no hope?" he asked in a trembling tone.

"None," answered the executive officer solemnly.

The commander raised his trumpet to his lips.

"Man the lifeboat!" heshouted through the tempest.

A moment later he left the ship.

No, she was not sinking. She was four hours late, and the captain preferred to take his chances with the storm to remaining on board and getting his picture in the newspapers.—Detroit Tribune.

### Brignoli and Age.

On one occasion Bianchi, the noted teacher, went on the stage to see Brignoli, whom he found pacing up and down like a mad. man, hunting over his part.

"Why, Brig, what is the matter with you? Are you nervous?" he asked.

"Yes, I am nervous," was the reply as he walked harder and faster than ever.

"But, Brig, you ought not to be nervous I've heard you sing the part 205 times. I heard you sing it 30 years ago.

"Thirty years ago! Who are you that should know so much?"

"Who am I? You know who I am, and I know who you are."

"Very well; you know what I am, but I am sure you do not know what you are, and if you wish I will tell you. You are a fool!"—New York Tribune.

### On Trial for Train Wrecking.

Bedford, Feb 5—The February term of court convened yesterday and disposed of several minor cases. Today at 1 o'clock a jury was empannelled in the case of the Huntingdon and Broad Top Railroad company against G H Corbin, formerly a conductor for many years on the road. Having been discharged from the employ of the company, Corbin swore vengeance many times. Several months ago Corbin came from Big Springs, Cumberland county, to Bedford where he remained a few days, after which he went to Everett. On the night after his arrival in Everett five switches were found open a few miles from town. Corbin proceeded to Huntingdon, where, having repeatedly threatened to kill General Manager Gage, he was arrested on a warrant sworn out by that official. Corbin was released from this charge, but was re-arrested and brought to Bedford to await trial on the charge of attempted train wrecking.

### Killed by a Stiletto.

Greensburg, Feb 5—James Daugherty was stabbed and killed by Angelo Riegori, an Italian, near Dononhue station, this evening. Both were employed by the Pennsylvania railroad as section hands. Riegori struck at Daugherty with a pick, of which he was quickly deprived by Foreman Seaman. Riegori then drew a long and keen stiletto from his breast and plunged it twice into Daugherty, who died in a few minutes.

The Italian fled and has not yet been arrested. Daugherty was married, but was separated from his wife, who is now living in Pittsburg. He was 40 years old and resided with a sister on Huckleberry hill.

**HARPER'S WEEKLY**

**In 1896.**

HARPER'S WEEKLY is a journal for the whole country. It deals with the events of the world that are important to Americans.

In carrying out this policy, in 1895, Julian Ralph visited China and Japan, and journeyed through the west; Richard Harding Davis took a trip through the Caribbean Sea; the evolutions of the new navy were described and illustrated by Rufus F. Zogbaum; Frederick Remington presented studies of army and frontier life; Poultney Bigelow attended the opening of the Kiel Canal.

In 1896 like attention will be given to every notable happening. The chief events in art, literature and music and the drama will be artistically presented. W. D. Howels, in the new department "Life and Letters," will discuss in his interesting way books and the social questions of the time. E. S. Martin's sprightly gossip of the Busy World will be continued. The progress of the Transportation Commission around the world will be followed, and Casper W. Whitney will conduct the department of Amateur Sport.

In 1896 will occur a presidential election. In its editorials and through its political cartoons the WEEKLY will continue to be an independent advocate of good government and sound money.

In fiction the WEEKLY will be especially strong. It will publish the only novel of the year by W. D. Howels, and a stirring serial of Scotch feud, by S. R. Crockett. The short stories selected are of unusual excellence and interest. In every respect Harper's Weekly will maintain its leading place in the illustrated journalism of the world.

The volumes of the Weekly begin with the first number for January of each year. When no time is mentioned, subscriptions will begin with the number current at the time of receipt of order.

### Great Evangelists.

To the Editor of the DAILY NEWS:

In this country from the earliest times, there have been men acting as evangelists. More than a hundred years ago the Philadelphia Baptist Association appointed Rev. Messrs. Edwards and Gano to visit and preach as evangelists. Dr. Nettleton, in the first half of the present century, was a famous evangelist. Inspired with the earnest wish to give himself to the foreign mission service, but prevented from so doing, he gave himself to the work of an evangelist; first among destitute churches, and then, upon the calls of his brethren, to their visitation of churches with the pastors. And everywhere the Lord went with him and wonderfully blessed his labors. Eternity alone will tell the multitudes led to Christin connection with his intinerant services. The names of others might be mentioned who were also much blessed in this work. Much can be said in favor of this particular instrumentality. Undoubtedly it is of divine appointment, for "he gave some evangelists." Say what we will, God sets the seal of his approval on evangelistic labors; and what "he hath cleansed, that call thou not common or unclean." Oh, what mighty power clothes a divinely baptized evangelist! And this is the cause of the success of Rev. Leonard Weaver, the evangelist, who is now doing a great work for God in our community. Having done evangelistic work ourselves for three years as well as conducted meetings with quite a number of evangelists I am prepared to say that evangelist Weaver stands in the front ranks with other evangelists of this country. His sermon to men only on Sunday was not delivered unto them in words only "but also in power, and in the Holy Ghost." Now is the time, with this God commissioned and sent evangelist as leader, for every christian of our community to do real work in order to reach and save many souls who have not been impressed to seek and to accept Christ as their saviour from sin by any of our churches.

### DEATH OF MRS. ELIZA MUSSER.

#### An Old Resident of Pine Grove Mills Passes Away.

A sad death was that of Mrs. Eliza Musser at Pine Grove Mills on Thursday evening. The deceased was aged about 65 years and was the widow of the late Wm. Musser. Death was caused by diabetes. The deceased was well known in the community in which she lived, besides having many friends in Bellefonte. Her maiden name was Miss Eliza Durst.

Not for many years has an evangelist visited Bellefonte with such good results as Rev. Leonard Weaver has caused during the past week. Every night large crowds have flocked to hear him at the Court House. Although it was not his former intention he has now decided to stay here a week longer. He has already done a wonderful work. He will do more before he goes away.

On Sunday he preached four sermons Two of them were in the Court House, one in the afternoon and one in the evening. As early as 7 o'clock in the evening the people commenced to flock to the Court House. The doors were not yet open so they had to wait outside. The large porch was soon filled with anxiously waiting people. When the doors were finally opened there was a crush of humanity as everybody was trying their best to secure the choicest seats. Long before the meeting commenced there was not even standing room and many were turned away unable to gain admittance. It was a great meeting—one of the greatest ever conducted in this city. Although it lasted almost two hours yet the entire audience was loth to leave. If the interest increases during the coming week as it has during the past few days, Rev. Weaver will be unable to secure a hall large enough to accommodate the many people who will turn out to hear him.

### A Pleasant Hour.

About twenty union ex-prisiners gathered about the dining table at the Gregg PostRooms at noon Saturday to partake of luncheon prepared by the wives and daughters of the members of the Post. Everything was perfectly arranged and a very plesant hour was spent relating old war incidents. Several toasts were made during the hour which was very interesting and humerous. George R. Meek of the *Watchman* and a representative of the REPUBLICAN were present and it is needless to say they did full justice to the good things to eat. Every-body had a good time and the only thing we regret was that the time passed away only to quickly.

### Driving Them Out.

Officer Garis was out on an excursion round town on Friday notifying all the tramps he could find to leave the town. This is a good move. He who has no home is to be pitied but there are many individuals who impose upon people when if offered work they would turn up their noses and depart in disgust. It is a good riddance of bad rubbage for this city.

### Last Before Lent.

Quite large crowd attended Miss Brew's dancing class on Friday evening. It was the last occasion of this kind before Lent. Everybody danced as if there was no such a thing as tomorrow and it really seemed as if they were trying to beat Lent out of every-thing they possibly could.

### Church Music.

Good church music is one of the great auxiliaries to divine worship. It is uplifting in its character and stirs the very soul of man.

Next Sunday evening there will be an opportunity of hearing some fine church music to be rendered by the choir of the Presbyterian church, under the direction of W. T. Meyer, organist. The occasion will be a service of song, and a cordial invitation is extended to all fond of good church music to be present.

### Accident at the Quarries.

On Tuesday afternoon Patrick Gallagher, a brother of the late Daniel Gallagher, met with a painful accident at Morris' stone quarries along the pike between Bellefonte and Milesburg. In some way or other he was struck in the back by a large stone. It was at first thought his injuries were fatal but he is getting along all right now. The unfortunate man lives at Howard. He was removed to his home where he is being cared for.

### A Fake.

The story about John Bower cleaning out the court, jury and attorneys with his crutch upon his conviction of robbing the station at Julian, as published in the "Tyrone Herald" is the biggest fake of the season as nothing of the kind happened. The Herald must have gotten its information from the expert Pennsylvania railroad whose statements are not always to be depended upon.—Howard *Hornet*.

### Expect a New Bell.

The new bell for the Diciple church at Mill Hall has been ordered from a Michigan firm and it is expected to reach that borough the latter part of this week. The bell itself will weigh about 800 pounds and with the framework on which it will be swung in the steeple it will weigh 1,100 pounds. The contract price is $100 Lock Haven *Democrat*.

### Off the Track.

The Snow Shoe train on the PENNSYLVANIA DIVISION was off the track near the nail works on Monday. Such occurances as these are very dangerous. Had the passenger train come along just at that time the loss of life would have been terrible.

#### Central Pennsylvania League to Be Organized.

The *Bulletin* says: This evening at 7.30 o'clock representatives from Renovo, Lock Haven, Sunbury, Shamokin and Williamsport will meet in the east parlor of the Park hotel for the purpose of organizing the Central Pennsylvania base ball league. The organization will be operated on thoroughly business principles. Manager David Spence, of the Demorests, has been busily engaged for some time perfecting arrangements for the formation of this league and all he now needs is a little encouragement from lovers of the game and he promises to give in return the best ball games possible.

The Demorests will be composed of all of last year's team with the addition of James L. Plumber, the Boston pitcher, who made an excellent record while with the Kalamazoo club of the Michigan state league and the Richmond, Va., club. New uniforms have been ordered and will be of navy blue material, trimmed with white; black stockings and leather belts. In addition to the league schedule Manager Spence has secured dates with the Elmira, Hornellsville, Corning, and also dates with the Syracuse Eastern league team. The Demorests' season will open Saturday, May 2, and close Saturday, September 19.

The Lock Haven club will be managed by Fred E. Bickford, which is a guarantee that the team will be composed of gentlemanly players.
